ADDRESSING THE NEEDS OF MANY LIFE SCIENCE RESEARCHERS & ELIMINATING THE BOTTLE NECK OF FINDING A SOURCE FOR RESEARCH COMPOUNDS

Spending too much on a product or project? Looking at ramping up the experiment and need to obtain better prices for larger quantities? Let us find and quote for alternatives or equivalents. Our methods can save you a minimum of 20—30% over your current costs.

“Simply send an email or call with the compound description and quantity, then we'll respond with prices, and availability. It's that simple.”

Several hundred thousand chemicals that are available from various sources can be searched by us in minutes with our databases, and we may be able to locate a hard-to-find compound that you have spent hours looking for. Saving you valuable time and removing your limiting factor so you can focus on research — all at no cost.

Why not have alternative options available? ▶▶▶

- Antibiotic Chemicals
- Molecular Biochemicals
- Cellular Biochemicals
- Pharma Chemicals
- Excipients
- Organic Polymers
- Biological Buffers
- Tissue Culture
- Peptides and Enzymes
- Recombinant Proteins
- Rare Compounds
- Ag-Tech Chemicals
- Inorganic Substances
